Meeting Summary

Members Present: Christopher Howerton (chair), Manuel Vélez (2nd Chair), Kathy Osburn, Elizabeth Walker (joined at 2pm)

Guests:

Spring Plenary: Christopher let us know that there won't be a breakout session specifically dedicated for our committee, but he's looking at other alternatives for our committee to get together or host an event.

ASCCC website: Christopher has been keeping the website updated with our agendas and minutes. He's also using the site to house FELA resources.

Upcoming ASCCC Activities: Part-Time faculty meeting next week, CTE face-to-face regionals in March, Area meetings coming in March, Spring Plenary is April; deadline to enter is April 12th

Christopher is working with the ASCCC executive director to see if we can have FELA badges for the Spring Plenary.

FELA Academy: Christopher reported that things are going well with the FELA cohorts. Christopher has been in contact with the mentees and has shared resources and documents. This has been positive. According to Christopher one group is having some difficulties with communications. This February Christopher shared some documents on types of leadership and on mentorship. Next month his focus will be on equity and diversity around leadership. Christopher encouraged us to share any documents with him regarding equity and leadership. The next cohort convening scheduled for February 24th will be more conversational so that members can explore their own leadership styles and what they bring into leadership. Christopher also sent out some self-assessment tools for the cohort to begin to assess their own leadership.

Christopher reported that this Spring we will also begin the selection process for the next FELA cohort while we complete this cohort. The idea is to begin the process earlier than this year to give the cohorts more time next year. The process will be designed in a way so that the next FLDC committee can have an earlier start to their FELA academy. An upcoming meeting with the ASCCC Executive Director will happen to set recruitment timelines for the 2023-2024 cohort.
