# Introduction

This second edition of *Minimum Qualifications for Faculty and Administrators in California Community Colleges* incorporates changes that resulted from a 1993 comprehensive review of the minimum qualifications regulations and disciplines lists. New regulations have been added to establish minimum qualifications for health services professionals, learning assistance coordinators, and work experience coordinators; other sections have been added to define more clearly what degrees are acceptable, which persons are grandfathered, and when an occupational license is required.

This booklet provides selected statutes from the California Education Code, regulations from Title 5 of the California Code of Regulations, and disciplines lists adopted by the Board of Governors of the California Community Colleges, designed to replace the system of credentials that was in force until June 30, 1990. The relevant sections of the Education Code were adopted by the Legislature in September 1988 as part of AB 1725, the community college reform bill. Significant amendments were made by AB 2155 and SB 1590 of 1989, SB 2298 of 1990, and SB 343 of 1993. Faculty internship programs were authorized by SB 9 of 1991.

Implementing regulations were originally adopted into Title 5 by the Board of Governors in July 1989. Additions or amendments were made in July 1990, September 1991, and June 1992, prior to the major amendments of September 1993 resulting from the comprehensive review. Faculty intern regulations were adopted in January 1992.

The disciplines lists used to implement the minimum qualifications for credit instructors, counselors, and librarians are now incorporated by reference into the Board's regulations. These lists were prepared and reviewed primarily by the Academic Senate for California Community Colleges. They were first adopted in July 1989, underwent minor revisions in November 1990 and May 1991, and were significantly amended in September 1993 as a result of the overall review.

Two frequently cited sections of the Education Code that did not appear in the first edition have been added in this edition. They are on page 9: Section 87663, concerning evaluations, and Section 87743.3, concerning faculty service areas. Users of this booklet are cautioned that these sections are reproduced here for convenience outside of their full context. For more complete understanding of evaluations, the user should read the entire Education Code article on "Evaluations and Discipline," commencing with Section 87660; for more complete understanding of faculty service areas, the user should read the article on "Reduction in Services," commencing with Section 87743.

The Human Resources unit in the Chancellor's Office continually monitors issues and questions relating to minimum qualifications, and the Academic Senate also regularly considers, through its own processes, changes it may wish to recommend to the Board of Governors. The next comprehensive review is scheduled for 1996.

§ 87357. Minimum qualifications; establishment and maintenance; "discipline"; definition and recommendations

(a) In establishing and maintaining minimum qualifications pursuant to Section 87356, the board of governors shall do all of the following:

(1) With regard to minimum qualifications for faculty, the board of governors shall consult with, and rely primarily on the advice and judgment of, the statewide Academic Senate. With regard to minimum qualifications for educational administrators, the board of governors shall consult with, and rely primarily on the advice and judgment of, an appropriate statewide organization of administrators. With regard to minimum qualifications for apprenticeship instructors, the board of governors shall consult with, and rely primarily on the advice and judgment of, appropriate apprenticeship teaching faculty and labor organization representatives. In each case, the board of governors shall provide a reasonable opportunity for comment by other statewide representative groups.

(2) The board of governors shall establish a process to review at least every three years the continued appropriateness of the minimum qualifications, and the adequacy of the means by which they are administered. The process shall provide for the appointment of a representative group of community college faculty, administrators, students, and trustees to conduct or otherwise assist in the review, including particularly, representatives of academic senates, collective bargaining organizations, and statewide faculty associations. In addition, the group shall be broadly representative of academic and vocational programs in the curriculum from both urban and rural districts, and representative of ethnic minority communities.

(b) The board of governors, relying primarily upon the advice and judgment of the statewide Academic Senate, shall prescribe by regulation a working definition of the term "discipline" and shall prepare and maintain a list of disciplines that are "reasonably related" to one another, as that phrase is used in the minimum qualifications. The initial list shall be distributed to the community college districts by July 1, 1989, for their use in applying the minimum qualifications for hire.

In formulating advice and recommendations to the board of governors regarding the definition of the term "discipline," the statewide Academic Senate shall consult with appropriate statewide organizations representing administrators and faculty collective bargaining agents. The statewide Academic Senate shall incorporate the advice of those groups into its recommendations to the board of governors, particularly as it relates to the practical ramifications of any proposed definition of the term "discipline" on issues of reassignment, transfer, and reduction in force.

The board of governors, relying primarily upon the advice and judgment of the statewide Academic Senate, shall prepare and maintain a list of disciplines in which the master's degree is not generally expected or available. The initial list shall be

distributed to the community college districts by July 1, 1989, for their use in applying the minimum qualifications for service. *(Added by Stats.1988, c. 973, § 28. Amended by Stats.1990, c. 1302 (S.B.2298), § 33, eff. Sept. 25, 1990.)*

87359. The board of governors shall adopt regulations setting forth a process authorizing local governing boards to employ faculty members and educational administrators who do not meet the applicable minimum qualifications specified in the regulations adopted by the board of governors pursuant to Section 87356. Unless and until amended pursuant to the process described in Section 87357, the regulations shall require all of the following:

(a) No one may be hired to serve as a community college faculty member or educational administrator under the authority granted by the regulations unless the governing board determines that he or she possesses qualifications that are at least equivalent to the minimum qualifications specified in regulations of the board of governors adopted pursuant to Section 87356. The criteria used by the governing board in making the determination shall be reflected in the governing board's action employing the individual.

(b) The process, as well as criteria and standards by which the governing board reaches its determinations regarding faculty members, shall be developed and agreed upon jointly by representatives of the governing board and the academic senate, and approved by the governing board. The agreed upon process shall include reasonable procedures to ensure that the governing board relies primarily upon the advice and judgment of the academic senate to determine that each individual faculty member employed under the authority granted by the regulations possesses qualifications that are at least equivalent to the applicable minimum qualifications specified in regulations adopted by the board of governors. The process shall further require that the governing board provide the academic senate with an opportunity to present its views to the governing board before the board makes a determination, and that the written record of the decision, including the views of the academic senate, shall be available for review pursuant to Section 87358.

(c) Until a joint agreement is reached and approved pursuant to subdivision (b), the district process in existence on January 1, 1989, shall remain in effect.

## Disciplines Requiring the Master's Degree

These disciplines lists must be used in conjunction with the Board of Governors' minimum qualifications regulations (Title 5, Sections 53400-430). A few of the applicable rules specified in Title 5 are:

- Degrees and credits generally must be from accredited institutions (Section 53406).
- An occupational license or certificate is required in certain instances (Section 53417).
- A district may hire a person who possesses qualifications different from, but equivalent to, those listed on the disciplines list, according to criteria and procedures agreed upon by the governing board and the academic senate (Section 53430).

Title 5 regulations also specify minimum qualifications for additional faculty members, including health services professionals, noncredit instructors, apprenticeship instructors, DSPS personnel, EOPS personnel, learning assistance and tutoring coordinators, and work experience coordinators.

Whenever this list mentions a master's degree, any degree beyond the master's would also satisfy that qualification.

Under each of the disciplines below, the phrase "OR the equivalent" refers to the possibility of hiring faculty who do not possess the exact degrees listed, under a local process developed and agreed upon by representatives of the governing board and the academic senate, as provided for in *Education Code* Section 87359 and Title 5 Section 53430.

**Exerpts from Section 4 of AB 1725 (1988):  
Legislative Findings and Declarations Relating to  
Minimum Qualifications and Hiring Processes**

(NOTE: Other paragraphs in this section address full-time/part-time balance, faculty recruitment and diversity, professional development, faculty governance relationships, evaluations, and tenure.)

(o) Any set of laws, regulations, directives, or guidelines regarding community college faculty and administrator qualifications, evaluation, hiring, or retention should promote the efforts of local community colleges to ensure that their faculty and administration consists of:

(1) Teachers who can teach and who are experts in the subject matter of their curriculum.

(2) Counselors, librarians, and other instructional and student service faculty who can foster college effectiveness and who are experts in the subject matter of their specialty.

(3) Administrators who can lead, organize, plan, and supervise; who understand the needs of faculty and the learning process; and who value institutional governance based upon a genuine sharing of responsibility with faculty colleagues.

(p) (1) The laws, regulations, directives, or guidelines should help the community colleges ensure that the faculty and administrators they hire and retain are people who are sympathetic and sensitive to the racial and cultural diversity in the colleges, are themselves representative of that diversity, and are well prepared by training and temperament to respond effectively to the educational needs of all the special populations served by community colleges.

(2) All state and local policies, rules, and regulations regarding community college faculty and administrator qualifications, evaluation, hiring, or retention should strengthen faculty, administration, and board cooperation in matters related to those topics. They should also strengthen the role of the faculty as an authoritative, professional collegiate body.

(q) (1) In general, the appropriate focus of minimum qualifications is in helping the colleges to ensure that they will select faculty who are competent in subject matter and possess the basic academic preparation needed to work effectively at the college level. The minimum qualifications for all faculty should be the same except where the application of qualifications without differentiation would be clearly unreasonable or impractical.

(2) The minimum qualifications for administrators should help the colleges to ensure that they will select individuals who are competent to perform the kind of administrative responsibilities that administrators are normally required to assume, such as supervision, organizational planning, and budget development and administration, and who understand the needs of faculty and the learning process.

(r) (1) The pool of underrepresented individuals interested in faculty and administrative positions in the community colleges should be increased. Furthermore, practical and effective ways of finding and recruiting those individuals should be developed and maintained. The state's leadership in this effort is appropriate and urgently needed.

(2) The hiring process for administrators and faculty (both temporary and permanent) should be designed so that both faculty and administrators take real responsibility for meeting affirmative action goals and ensuring that affirmative action considerations effectively influence hiring decisions.

(s) (1) No single approach to hiring faculty can guarantee attainment of the colleges' affirmative action goals and consistent selection of qualified individuals. Nevertheless, any hiring process adopted by a college should require the joint and cooperative exercise of responsibility by the faculty, administration, and board and should reflect the differing source of each participant's authority and the kind of responsibility that authority conveys.

(2) The governing board of a community college district derives its authority from statute and from its status as the entity holding the institution in trust for the benefit of the public. As a result, the governing board and the administrators it appoints have the principal legal and public responsibility for ensuring an effective hiring process.

(3) Faculty members derive their authority from their expertise as teachers and subject matter specialists and from their status as professionals. As a result, the faculty has an inherent professional responsibility in the development and implementation of policies and procedures governing the hiring process.

(4) Beyond requiring a joint and cooperative exercise of responsibility, the hiring process should be focused on ensuring that the community colleges will select teachers who can teach, and who are experts in the subject matter of their curriculum; and counselors, librarians, and other instructional and student services faculty who can foster community college effectiveness and who are experts in the subject matter of their specialty. This means that the colleges may establish criteria for hiring that go well beyond the minimum qualifications set by regulation. The establishment of additional criteria of this sort should be expected and encouraged.

(5) The focus of the hiring process for administrators is slightly different from the focus in hiring teachers. In hiring teachers, the goal is to find people who can teach, but in hiring administrators the goal is to ensure that the community colleges will select administrators who are competent to perform the kind of administrative responsibilities that administrators are normally required to assume in the context of the operation and programs of the community colleges.

(t) The state should provide the community colleges with enough resources and a sufficiently stable funding environment to enable them to predict their staffing needs and to establish highly effective hiring processes. While the precise nature of the hiring process for faculty should be subject to local definition and control, each community college should, in a way that is appropriate to its circumstances, establish a hiring process that ensures that:

(1) Emphasis is placed on the responsibility of the faculty to ensure the quality of their faculty peers.

(2) Both faculty members and administrators participate effectively in all appropriate phases of the process.

(3) Positions to be filled are normally identified through a well defined, thoughtful, planning process.

(4) The time between the announcement of each position and the selection of a candidate for hire is long enough to allow a thorough, complete, and thoughtful search.

(5) Clear and complete job descriptions, including all job-related skills requirements and any additional qualifications recommended by the faculty when appropriate, are prepared for each position, and these job descriptions are reviewed before each position is announced, to ensure conformity with the community college's affirmative action and nondiscrimination commitments.

(6) All participants in the process are given appropriate training in affirmative action procedures and the affirmative action goals and timetables of the community college so that success in reaching those goals is better assured.

(7) Individuals, preferably minorities or women, who are knowledgeable about and responsible to the community college's affirmative action goals are included on all selection committees or similar groups.

(8) Final hiring decisions are, whenever reasonably possible, made during the regular academic year and promptly communicated to the faculty; the expectation that faculty recommendations regarding the hiring of faculty will normally be accepted is reinforced; and only in exceptional circumstances, and for compelling reasons communicated to the selection committee and to the president of the academic senate of the college, will someone be hired as a faculty member who has not been found to be among the best qualified by the faculty.

(u) The state should provide the community colleges with enough resources and a sufficiently stable funding environment to enable them to predict their staffing needs and to establish highly effective hiring processes. While the precise nature of the hiring process for administrators should be subject to local definition and control, each community college should, in a way that is appropriate to its circumstances, establish a hiring process which ensures that:

(1) Representatives of the faculty and other employees whose circumstances at work will be directly affected by the employment of the administrator participate effectively in all appropriate phases of the process.

(2) Positions to be filled are normally identified through a well defined, thoughtful, planning process.

(3) The time between the announcement of each position and the selection of a candidate for hire is long enough to allow a thorough, complete, and thoughtful search.

(4) Clear and complete job descriptions that include all job-related skills requirements are prepared for each position and these job descriptions are reviewed before each position is announced, to ensure conformity with the community college's affirmative action and nondiscrimination commitments.

(5) All participants in the process are given appropriate training in affirmative action procedures and goals and timetables of the community college, so that success in reaching those goals is better assured.

(6) Individuals, preferably minorities or women, who are knowledgeable about and responsive to the college's affirmative action goals are included on all selection committees or similar groups.

(7) Final hiring decisions are, whenever reasonably possible, made during the regular academic year and promptly communicated to the faculty and staff.
