Upon completion of today’s session, participants will be able to:

- Articulate the important role that Student Students & Library/Learning Support Services play in strengthening institutional effectiveness (IE) & learning.
- Apply at least one new concept to advance SLO assessment, program review, and planning processes in non-instructional areas at their respective campus.
- Identify at least one way in which to simplify institutional effectiveness processes at their respective campus.
- Identify at least one way in which to facilitate the use of more meaningful data in non-instructional areas.
Institutional Effectiveness
The institution demonstrates strong commitment to a mission that emphasizes achievement of student learning and to communicating the mission internally and externally. The institution uses analyses of quantitative and qualitative data and analysis in an ongoing and systematic cycle of evaluation, integrated planning, implementation, and re-evaluation to verify and improve the effectiveness by which the mission is accomplished.

  - Implications for improvements/future planning?
A thought on Learning...

“... a comprehensive,, holistic transformative activity that integrates academic learning and student development, processes that have often been considered separate, and even independent of each other. When we say learning then we do not mean exclusively or primarily academic instruction, the acquisition of disciplinary content, or classroom learning.”
