ACADEMIC SENATE  
for CALIFORNIA COMMUNITY COLLEGES

**HELLO**

my name is

Two-Minute Mixer

# BE A PART OF THE STATEWIDE DECISION MAKING PROCESS!

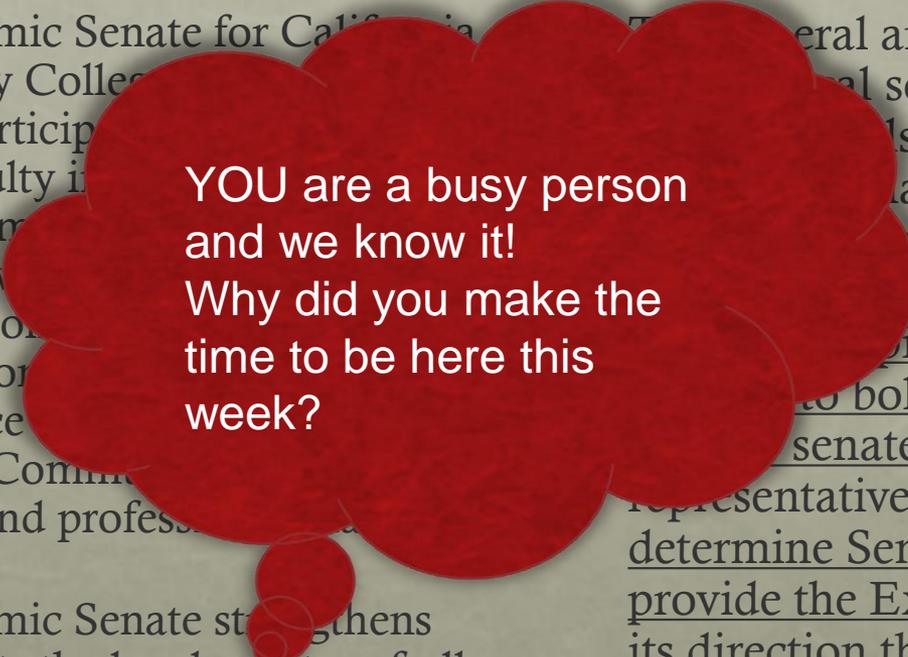

## Mission of ASCCC

The Academic Senate for California Community Colleges is the official voice of the local academic community. It represents the college faculty in matters of local academic policy; develops and acts upon policies of statewide concern; and serves as the official voice of the California Community Colleges in academic and professional matters.

The Academic Senate strengthens and supports the local senates of all California community colleges.

## Purpose of Plenary

The Plenary sessions (general and breakout sessions) are held for all local senates—their officers and members (also serve as their local delegate), and other representatives—to be apprised of college affairs, and other matters of statewide concern; to receive new policies, to receive new resolutions, to bolster the effectiveness of the senate, to select representatives and officers, and to determine Senate positions and provide the Executive Committee its direction through the resolution and voting processes.

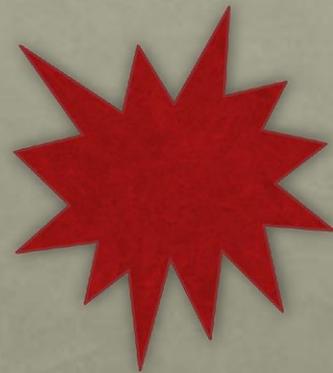

YOU are a busy person  
and we know it!  
Why did you make the  
time to be here this  
week?

## **\*9.03 S13 Conditions of Enrollment for Online Instruction**

Whereas, Online learning is a mode of instruction that has become commonplace in our community colleges and some colleges now offer degrees exclusively online;

Whereas, Students may not have the time management skills needed to succeed in an online class or section, may have unrealistic expectations about online education, and may lack the basic technological skills required to succeed in a college online class or section;

Whereas, Student success in an online course depends not only on mastering the course content but also on a student's ability to navigate within the online environment and manage the unique aspects of an online class or section including specific technological skills and higher reading aptitudes; and

Whereas, Section 55200 of Title 5 describes specific characteristics of distance education and online instruction but does not permit colleges to implement a condition of enrollment to ensure students are prepared to succeed in the online environment;

Resolved, That the Academic Senate for California Community Colleges support allowing implementation of appropriate additional preparation in order to enhance student success in online classes or sections; and

Resolved, That the Academic Senate for California Community Colleges investigate what would be required to permit colleges to implement appropriate conditions of enrollment for distance learning courses, including changes to Title 5 if necessary, and research the efficacy of a required orientation designed for students taking online class or section and report the results of the study to the body by the Spring 2014 Plenary.

# LEADERSHIP INSTITUTE

JUNE 13, 2013 - JUNE 15, 2013

Dedicated leaders make the difference, be it a curriculum chair, senate president, or college president.

Invested leadership is critical for the success of your local senate. Cultivating and identifying individuals with an interest in and a drive to be leaders is necessary to ensure the on-going health of your senate. An effective senate not only attends to the business of today, but plans for its own health in the future. In challenging times, the importance of being proactive to ensure the successful evolution of your senate cannot be over-stated. The 2013 Faculty Leadership offers campus leaders an opportunity to strengthen their skills and their senates.
