 - Description: We are all aware that colleges are accredited, not districts. However, in multi-college districts, “the district” plays a substantial role in the college’s ability to meet the accreditation requirements and must support each college within the district. Strategic coordination among the colleges and the district can support effective development of the colleges’ ISERs. This session will explore some of the unique challenges and opportunities of creating an ISER in a multi-college district. As well as review The Commission’s “Policy on Evaluation of Institutions in Multi-College/Multi-Unit Districts or Systems” and processes for the assignment of visiting teams for multi-college districts.

 - Description: A challenge for many colleges is clearly demonstrating how integrated planning and data is used to make resource allocation requests. This session will focus on resource planning through integrated planning and how to make data accessible and meaningful for planning. Additionally, developing an evaluation plan of your local planning processes is important as we consider our institutional effectiveness during lean times as well as during periods of growth.

- SESSION B:
 - Topic: **ACCJC Social Justice Policy and Enhancing Racial Equity in our Accreditation Work**
 - Description: In June 2021, the Accrediting Commission for Community and Junior Colleges (ACCJC) released its Policy on Social Justice. Historically, institutions of higher learning have operated with firmly established policies and procedures that promote a climate of exclusion, racial inequity and racism towards Black, Indigenous, People of Color (BIPOC). The ACCJC understands that issues around inclusion, diversity, equity and racism are deeply rooted within systemic racist structures and policies that support the very foundation of society. Further, the Commission has determined that people of color have long been disadvantaged by the prejudice, discrimination and implicit biases inherent within higher education that white people have been able to benefit from. Come join this discussion of the new ACCJC Social Justice Policy and its potential impact on the California Community Colleges accreditation process.
 - **Presenters:**
 - *Alicia Robles López, ASCCC Accreditation Committee Member*
 - *Robert L. Stewart Jr. , ASCCC Area C Representative*

Join the conversation during this breakout, as the presenters provide an overview of specific ACCJC accreditation standards as they apply to Career Technical Education programs and how institutions can manage both programmatic and institutional accreditation.
 - **Presenters:**

- *Virginia “Ginni” May - ASCCC Vice-President*
- *Cheryl Aschenbach, ASCCC Secretary - Agreed (Proposed)*

Saturday, February 26, 2022 (DAY 2)

- **Breakout Session IV (9:00am - 10:00am)**

- SESSION A:

- Topic: **Distance Education: You, Your Students, and ACCJC**
- Description: In response to the recent pandemic, many California community colleges increased the number of courses and programs offered online. While colleges expand DE offerings and grapple with plans for the continuation and assessment of DE work, we all could benefit from a focused discussion on how exactly distance education figures into the accreditation process. The ACCJC is required by federal regulations to review the quality of distance education as well as correspondence education. Join us for a discussion about what constitutes quality distance education, and how to ensure that your courses and programs meet the standards. Together we will explore successful strategies being used to ensure the expected rigor and compliance to the standards as it relates to this instructional modality.
- **Presenters:**
 - *Karla Kirk - ASCCC North Representative*
 - *Gohar Momjian, Vice President, ACCJC*
 - **Other?**

- SESSION C:

- Topic: **Policies and Practices Review: Columbia College’s Experience for Continuous Quality Improvement**
- Description: ACCJC Standard I.B.7 calls on institutions to “regularly evaluate [their] policies and practices across all areas of the institution.” The Yosemite Community College District has a robust review and

approval stream for all Board Policies and Administrative Procedures. Yet in our last ISER, we recognized that the college catalog houses dozens of student-facing policies, both interpretations of BP/AP and college-specific expectations, that did not have such a robust review cycle. In response, our Institutional Effectiveness Council launched the Catalog Chunking Committee to establish and implement a careful review cycle for all policies found in the catalog. This presentation will outline how we went about adding this important review, highlight some of the significant edits we made, and illustrate how we will continue this review cycle moving forward with our online catalog. It will also outline our district's extensive BP/AP review cycle and how we are ensuring that those changes result in updates to the catalog.

 - *Elissa Creighton – Curriculum Specialist*
 - *Colin Thomas – Chemistry Professor and Institutional Effectiveness Council Co-Chair*

- **General Session III (10:30am - 11:45am)- Finding Synergy in Accreditation Work: Collaborations that Matter & Listening Session to Collect Additional Needs from the Field.**
 - **Idea for Session:**
 - Reinforce the theme of the institute and the importance of our collaboration with various partners (ASCCC/ACCJC/CIOs/RP/Others) - *We all have a role in accreditation work and working together can form synergy if we work in interconnected ways.*
 - As system leaders what can we do to support the work locally?

Keynote Presenter Information/BIO

Dr. Siria Martinez, Assistant Vice Chancellor of Student Equity and Success, CCCCCO

Siria S. Martinez, Ph.D, who has dedicated her career to eliminating educational inequality, will lead the Institutional Effectiveness Partnership Initiative (IEPI) in deploying professional development and technical assistance aimed at advancing equity and success strategies. She comes to the Chancellor's Office from Woodland Community College, where she served as Dean of Student Success & Institutional Effectiveness and Interim Dean of Student Services and where she co-led an 11-person interdisciplinary Student Success Committee overseeing the development of a three-year Student Equity Plan.

A Los Angeles native raised in Compton who was the first in her family to attend college, Martinez began her higher education career at the University of Southern California where she served as assistant director in the Office of Admissions and Associate Director of Academic Affairs in the Computer Science Department. She was recruited in 2007 to work for UC Riverside's Bourns College of Engineering as its Graduate Student Affairs Manager, then worked for nearly two years at Palomar College as its Title V/Hispanic Serving Institution Project Supervisor providing leadership in supporting the retention and academic success of Hispanic and low-income students at the San Marcos campus.

In 2011, Martinez returned to her alma mater, UC Davis, as Director of the Ronald E. McNair Scholars program guiding first-generation and low-income students to pursue doctorate degrees in their respective

fields. While working with first-generation students, Martinez conducted research during her doctoral program that examined student experiences in community college developmental learning communities.

Martinez holds a bachelor's degree in rhetoric and communication from UC Davis; a master of education, postsecondary administration and student affairs, from USC; and a Ph.D. in higher education from Claremont Graduate University.
