2. PUBLIC COMMENTS

Procedural: 2.01 Call for Public Comments

William Mask, MCCCD Adjunct Instructor, addressed the board regarding office hours for adjunct faculty. He thanked the Board of Trustees for adding 10 office hours allocated to adjunct instructors. Students today struggle with everything, and he said the relationship with the professor is critically important to the success of the students and office hours facilitate those relationships. Students often will confide in the instructor on certain topics, and he recently experienced this with a topic dealing with campus safety. He stressed there is value for the students when they have an opportunity to seek assistance outside the classroom.

Stephanie Curry, Reedley College Academic Senate President, reported the RC senate supports the creation of the MCCC Academic Senate. The RC senators have worked with the Madera Oakhurst Faculty Alliance for many years, and it has been a collaborative process to establish the MCCC Academic Senate.

Chuck Riojas, building trades, thanked the board for considering a PLA on West Fresno campus and is encouraged that this item can move into negotiations with the possibility to explore the avenues for a successful PLA. He thanked the board for the opportunity to lend a voice and participate.

Michael Lopez, building trades and FCC alumnus, thanked the board for putting the PLA on the agenda. He stated the building trade has a MOU to give students credit for work they have already done, and apprenticeships can be life changing. He fully supports the PLA.

Lee Ann Eager, Executive Director Fresno Economic Development Commission, addressed the board regarding a Central Valley Training Center to be housed at West Fresno. She discussed the value of a training center to create a trained workforce for businesses. West Fresno is the perfect location for the community and for the Central Valley. She stated putting local people to work is very important. She was privileged to have worked with the City of Fresno on their PLA, and they were able to do innovative things to be sure everyone's needs were met.

Police Chief Jerry Dyer spoke in favor of a PLA. He also supported the PLA with city of Fresno for the airport expansion. He discussed the need for the project to come in under budget and on time and that is the goal of a PLA. He stated PLAs and unions provide training through their apprenticeship programs so that citizens can develop skills and be employable and have a long term positive impact on the community.

District Attorney Lisa Smitcamp stated the PLA brings hope, and an opportunity to provide a good income for employees and benefits for them and their families. She stressed it creates an opportunity for those that have lived in poverty and have been involved in the criminal justice system, to receive apprenticeship training through the unions. She stated the time is right for a PLA and the time is now.

Moved to approve moving action item #8.02 Approval of Resolution No. 2019-23 to this location in the meeting.

Motion by Eric Payne, second by Annalisa Perea.
Final Resolution: Motion Carries
Yes: Richard Caglia, Magdalena Gomez, Deborah Ikeda, Bobby Kahn, John Leal, Eric Payne, Annalisa Perea

Action: 8.02 Resolution No. 2019.23 Directing Staff and Legal Counsel to Prepare and Negotiate a Project Labor Agreement for a Pilot Project at the New West Fresno, Career & Technology Center, Campus to be considered for action during the Public Comment portion of the meeting.

Moved to approve Resolution No. 2019.23 Directing Staff and Legal Counsel to Prepare and Negotiate a Project Labor Agreement for a Pilot Project at the New West Fresno, Career &
Technology Center, Campus to be considered for action during the Public Comment portion of the meeting.

Motion by John Leal, second by Annalisa Perea.

Trustee Gomez thanked the committee for their work leading up to the recommendation. She asked for an explanation of pilot project. It was explained the district wants to try a PLA for the site work at the West Fresno campus. The item is worded to allow some flexibility. There is a large scope of work at West Fresno, and this would be the first phase of the site work.

Trustee Leal thanked Trustees Ikeda and Perea for serving with him on the ad-hoc committee. He stated they met three times and heard information from both sides on the PLA. He stated it is a pilot because it is the first big project for the district. If this is approved, they will negotiate the parts of the phases of the project to be considered under the PLA. He added it is premature to say we are only doing site construction.

It was explained the ad-hoc committee agreed the PLA would be for site work in the first phase. It was also explained the district can start with this and then have the option to bring back another resolution for other phases. Trustee Leal stated it was not his understanding that it was limited to site work only.

Trustee Perea stated it was her understanding the exact scope of work is going to be determined as part of the negotiations. She stated staff met many more that three times, and she appreciates the time they took to educate the ad-hoc committee. She stated it was an inclusive process and after hearing both sides, the resolution is being brought forward today.

General Counsel Besmer stated during the ad-hoc meetings it was decided to ensure there was room to negotiate the terms of what would be included for the pilot. However, he stated staff needs to have clear direction from the board at this time. Whether the direction is the site work or one particular phase of the project, the direction to staff needs to be clear. If needed, there is room to amend the language so that we know we are clear.

Vice Chancellor Miktarian agreed with Mr. Besmer; there is flexibility in the language. She stated according to the architect the site work is coming back soon, so it is important to keep this moving forward. President Ikeda also stated the language is open and flexible. Trustee Leal stated he is satisfied with it as is.

Trustee Kahn stated the ad-hoc committee and staff did a lot of work on this. As a trustee that did not participate in the ad-hoc committee, it would have been helpful to have that information provided to him in advance of this meeting. He encouraged administration to share all of the details of this in advance rather than just providing a resolution without the knowledge of what was discussed in the ad-hoc committee meetings. He asked the district to stay with the past practice in that if one trustee has information about an item, the information is shared with all trustees. He feels uninformed to vote. President Ikeda stated there will be a chance to discuss this further and get more information to alleviate concerns as the process moves along.

Trustee Caglia stated he also thought there would be more discussion and dialogue. He stated this will not be something that happens overnight and hopes to be informed up to the day of the vote as this moves forward.

Trustee Payne stated all of the board members had an opportunity to have conversations with Chancellor Parnell and Vice Chancellor Miktarian to ask clarifying questions. He took the opportunity to meet with staff, and the chair has made herself available for any discussion that trustees want to have. He is grateful for discussions with community stakeholders and appreciates that staff took a deep dive from both sides. He thanked the speakers who addressed this issue today for helping to eliminate the woes in his neighborhood and for supporting an educational workforce for our students.

Dr. Parnell clarified the first bid that will be brought to the board will be for the initial site work. It could be $10 - 15M and will be the pilot PLA test. The site work will be the first thing that is negotiated.
Trustee Gomez stated she is confused about what is being voted on. Community members are asking the board to make sure it is as broad as possible, but focus is on just site work. Dr. Parnell clarified site work is the first project that is approved by DSA. He stated the board is voting to do a PLA for the initial site work.

Trustee Kahn made the correction that the board is voting to negotiate on a PLA.

Trustee Leal stated the language does matter, he added it is a pilot in the first phase and if it goes well the board can consider other projects.

Trustee Ikeda stated she had a lot of reservations about PLAs. In listening to the union folks they feel their training is the best. The ad-hoc committee also heard from the ABC representatives. If there is a PLA, the district cannot use those workers from ABC. She stated she has heard only 20% of the contractors are union shops, and the other 80% will not be able to bid the projects. We might end up bringing people in because there are not enough employees that work at union shops. The board wants to hire locally and use our students, minority owned businesses, and businesses that support veterans. All of those conditions could be put in the district’s bid specs, and then everyone bids, and the lowest bidder is selected. She stated the district can achieve what we want to achieve without doing a PLA.

Trustee Caglia stated those points are very valid, and he has some of the same concerns. He stated he hopes these negotiations are designed to eliminate these concerns, and the parties know we want to work out those issues.

Final Resolution: Motion Carries on a roll call vote
Yes: Richard Caglia, Magdalena Gomez, Deborah Ikeda, Bobby Kahn, John Leal, Eric Payne, Annalisa Perea

DeRon Walker FCC ASG president, addressed the board on issues relative to the bookstore transition including incorrect textbooks being ordered, wrong materials batched together, receipts not being itemized, computers crashing for hours, and CalWorks and DSPS students not being able to purchase textbooks. He stated Follett owns 200 other bookstores. He believes the board does not want to interfere with student success, and he hopes the issues can be resolved.

Lola Gayles, FCC full-time student, addressed the board regarding her challenges with the bookstore during the summer months. She made several attempts to work with the bookstore to obtain the needed information. Due to her inability to get the needed lab materials she has fallen behind in her classes and has gone from an A/B student to potentially failing her course. She asked the board for help.

Trustee Payne stated he had questions as it relates to the bookstore transition. Since the bookstore transition was not placed on the agenda for discussion and in order to avoid Brown Act violations, Trustee Payne was cautioned to limit his discussion to a question and staff will respond back to him. Trustee Ikeda stated administration will communicate the corrective action plan.
